{ Overview }

A book that mainly illustrates a dream that I've had once in 2007. The whole dream revolves around this mysterious bird that spreads its supernatural powers on me, and tends to magically solve all the problems that I pass through. These problems are mainly educational, social, love related, and even political! This book illustrates these situations in several scenarios that look very close to the actual dream.
Sweet Dreams!

...actual dream. I tended to illustrate this
...that I had during the dream. The choice of colors are also
chosen in parallel to what colors I saw, that are Red, Yellow, Black.
